We wish you all a very happy new year of 2013 on behalf of SISA Family. Dear Friends, in this column I am going to share a story with you all. I was watching a movie this week and I noticed an actress (who has very good eyesight) playing the part of a blind lady and she played it well. So well that if you were seeing her for the first time, you would think that she was a blind actress. It seemed that this actress had taken her time to put a little more effort into her career so that she could play parts that other actresses could not.

Have you ever seen people digging a well before? They don't just stop when they see a little drop of water; they put in a little more effort to assure that they get plenty of water. A popular saying says that, "It is only an average mind that would do the same thing all the time and expect another result." All we need to do is to put a little more effort so that we can expect a different and spectacular result.

Are you tired of giving your best because you have tried and tried and it's like you are not doing anything and you have decided that the only option is to give up, or back out of that particular project?

Why not put in a little more effort?

I know you might be wondering and pondering what little effort do you need to put in again, when you have tried and tried and tried.

We cannot be versatile in life if we do not put in that extra effort in everything we do. We deserve nothing but the best, but if we must be the best and get the best then we must be willing and ready to put in that little extra effort that is required to make it to the top.

Don't forget that when you came into the world, people were smiling and you were crying. We should always strive to make sure that when we are leaving this world the reverse is the case; people are crying and we are smiling. This cannot be really achieved if we do not put that little more effort in everything we do to bring the best out of others, our Company, your community, your state, your country, your nation, and the world as a whole.

There is a space for everybody to be at the top, but those at the top are those that have put in that extra effort, those that never gave up, and those that are willing and ready to overlook their failures and keep going.

I know and I am sure that you have been working hard. Why not put in that extra bit of effort because I know you can do it, I know it's in you, and it is achievable by you.

You are the only you the world has and that's why you are special and unique in your own way. All you need to do to show that uniqueness is to put in that extra effort.

Learning Lessons

It is worth doing.....

Horror gripped the heart of a first world war (WW I) soldier, as he saw his lifelong friend fall in battle. The soldier asked his Lieutenant if he could go out to bring his fallen comrade back, "You can go," said the Lieutenant, "but don't think it will be worth it.

Your friend is probably dead and you may throw your life away."

"The Lieutenant's words didn't matter, and the soldier went anyway.

Miraculously, he managed to reach his friend, hoisted him onto his shoulder and brought him back to their company's trench. The officer checked the wounded soldier and then looked kindly at his friend.

"I told you it wouldn't be worth it," he said. "Your friend is dead and you are mortally wounded."

"It was worth it, Sir," said the soldier.

"What do you mean by worth it?" responded the Lieutenant. "Your friend is dead."

"Yes Sir," the soldier answered,

"But it was worth it because when I got to him, he was still alive and I had the satisfaction of hearing him say....

"Jim...I knew you'd come."

Many times in life, whether a thing is worth doing or not, really depends on how u look at it.

Take up all your courage and do something your heart tells you to do so that you may not regret not doing it later in your life.....

Think it over.

Inner peace and contentment are more valuable than all the riches in the world.
